## TECHNICAL SKILLS

**Languages:** JavaScript, TypeScript, C, Java, SQL

**Frontend:** React.js, Redux, JavaScript, TypeScript, HTML5, CSS3, Tailwind CSS, Bootstrap

**Backend:** Node.js, Express.js, REST APIs, WebSocket, JWT Authentication

**Databases:** MySQL, MongoDB, Firebase

**Tools & Platforms:** Docker, Nginx, AWS, Git, GitHub, GitHub Actions, Postman, Render, Vercel

## EDUCATION

**DY Patil University**

Dec 2021 – June 2025

*B.Tech - Computer Science and Engineering | CGPA : 8.45*

Pune, India

**Nehru High School & Junior College**

May 2019 – June 2021

*Intermediate in Science | Percentage : 70%*

Tumsar, India

## EXPERIENCE

**Innomatics Research Labs**

Jan 2025 - Mar 2025

*Full Stack Developer Intern*

Pune, India

- Developed a healthcare booking platform using **MERN Stack**, supporting **100+ concurrent users**.
- Implemented real-time **patient-doctor appointment scheduling** with form submissions via **Formspree**, reducing booking time by **30%**.
- Built **role-based access control** for Admins, Doctors, and Patients, ensuring **100%** data privacy.
- Optimized backend APIs to improve performance by **40%** and reduced frontend load times by **35%**.

**Main Flow Services & Technologies Pvt. Ltd.**

July 2024 - Sep 2024

*Web Designing Intern*

Noida, India

- Designed a fully responsive e-commerce website using **HTML**, **CSS**, and **JavaScript**, improving mobile accessibility by **30%**.
- Developed a live news aggregation platform using **React.js** and **Bootstrap**, with real-time content delivery.
- Optimized **web performance** and **loading speed** across devices from **4.0s** to **2.8s**.

## PROJECTS

**SmartRecruit – AI Hiring Platform** | [GitHub](#)

Oct 2025 - Dec 2025

- Developed an **AI-powered recruitment system** using **MERN stack** with **automated aptitude tests**, **technical assessments**, and **real-time interviews**.
- Implemented **face detection** with **5+** anti-cheat mechanisms using **face-api.js**, improving assessment integrity by **95%**.
- Integrated an **advanced video interview platform** using **ZegoCloud** and **automated candidate communication** using **EmailJS**.
- Deployed a scalable architecture using **Docker**, **GitHub Actions**, **Nginx**, **Certbot**, and **AWS EC2** for automated and reliable production.

**StudyNotion – Online Learning Platform** | [GitHub](#)

Oct 2025 - Dec 2025

- Developed a scalable **EdTech platform** using **MERN stack** supporting **100+ course enrollments** with secure **JWT authentication** and **progress tracking**.
- Integrated **Razorpay** for secure online payments with **automated email** notifications.
- Built a **real-time dashboard** using **Chart.js** to visualize income, course performance, and student progress, reducing management time by **30%**.
- Deployed the platform using **Docker**, **Nginx**, **GitHub Actions**, and **AWS EC2** with **HTTPS** via **Certbot** for secure, scalable production.

**LinkedIn Clone – Professional Networking Platform** | [GitHub](#)

Sep 2025 - Dec 2025

- Built a LinkedIn Clone using **MERN stack** with secure **JWT** and complete user profile management.
- Enabled real-time post creation, media uploads via Cloudinary, likes, comments, connections, and email notifications, increasing user engagement by **60%**.
- Implemented **real-time messaging** with **Socket.io** and file sharing with latency under **200ms**.
- Deployed the platform using **Docker**, **Nginx**, **GitHub Actions**, and **AWS EC2** with **HTTPS** via **Certbot**, ensuring a secure and scalable production setup.

## CERTIFICATIONS

- Mastering MERN Full-Stack Development – Apna College
- NC-RISES 2024: 1st National Conference on Radical Innovation for Sustainable Engineering Solutions
